NATIONAL COURT REPORTING AND CAPTIONING WEEK

(Mr. GUINTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUINTA. Mr. Speaker, I rise in recognition of National Court Reporting and Captioning Week, which is taking place next week.

Court reporters and captioners are highly specialized professionals who record our most important public events and provide vital closed-captioning services to nearly 48 million Americans.

My own parents met in court reporting school and went on to start a small, successful business. The training is rigorous. Certification requires one's ability to type at a rate of 225 words per minutes. A court reporter is transcribing this very moment in Congress.

The New Hampshire Court Reporters Association recently celebrated its 30th anniversary, but the profession's history in the United States extends much further. Because of court reporters, we have an accurate record of the first days of our country as our Founding Fathers drafted the Declaration of Independence and the Constitution.

I would like to thank court reporters and captioners for their service, enabling public participation in our democracy—a cornerstone of representative government in the United States.

TRIBUTE TO SANFORD "MAN MAN" HARLING III

(Mr. BRENDAN F. BOYLE of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. BRENDAN F. BOYLE of Pennsylvania. Mr. Speaker, I rise today in honor of Sanford Harling III, a widely known and well-loved 12-year-old from Norristown, Pennsylvania, affectionately known as "Man Man."

Sanford tragically died after he selflessly dove back into the flames of his own burning home to rescue his father, who was bedridden while recovering from hip surgery. Unbeknownst to Man Man, his father had already escaped through a second-story window.

Although this courageous 12-year-old never reemerged from the smoldering ruins of his home, his memory now resonates well beyond his community thanks to this remarkable act of heroism.

While the honor and recognition that Sanford deserves cannot return him to the embrace of his family, perhaps his shining example will inspire other deeds of lifesaving bravery and devotion. He will be forever remembered in our community and our country as a hero.

I offer my deepest sympathies to the Harling family and to everyone who knew and cherished this young man's character.

SUPREME COURT STAY ON CLEAN POWER PLAN

(Mr. YODER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YODER. Mr. Speaker, every day hardworking American families are living with greater burdens placed upon them by their own Federal Government. As our constituents struggle to pay their bills and realize the American Dream, they do so under a weight of taxes and burdensome regulations from Washington.

This week, the working guy or gal actually got a reprieve from one of these costly burdens when the Supreme Court placed a stay on President Obama's so-called Clean Power Plan. The \$480 billion plan—yes, that is billion, with a B—would increase electric rates for millions of Americans. In Kansas, electric utility rates may spike by 30 percent.

At townhall meetings with constituents, I rarely have a constituent come up and ask for a 30 percent increase in their electric rates, yet Washington will make Americans foot the bill once again.

What do we get for the \$408 billion in hidden taxes and higher electric utility rates? A potential one one-hundredth of a degree reduction in global temperatures.

Mr. Speaker, I applaud the Supreme Court for placing a hold on this Big Government tax on my constituents. Finally, a win for the little guy.

FOREIGN INTELLIGENCE SURVEILLANCE ACT SECTION 702 AND SPYING BY NSA

(Mr. POE of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POE of Texas. Mr. Speaker, the NSA is using a loophole in the Foreign Intelligence Surveillance Act to spy on Americans without a warrant. Under section 702 of FISA, government agents may seize information from databases on suspected foreign terrorists.

While seizing the information on these terrorists, NSA also seizes data

on Americans without a warrant, data that includes emails, texts, and voice communication. This is an unlawful interpretation of FISA.

It was never the intent of Congress that section 702 would be used to create databases of information that would later be searched for information on American citizens without a search warrant and without that individual's knowledge.

I have introduced legislation that would prohibit warrantless searches of government databases for information that pertains to U.S. citizens.

The NSA has and will continue to violate the constitutional protections guaranteed to every American unless Congress acts. Until we fix this and make the law clear, citizens will never be sure or safe that their private conversations are secure from the eyes and spies of government.

The Bill of Rights cannot be trampled upon in the name of national security, whether the NSA likes it or not.

And that is just the way it is.

UNIVERSITY OF TEXAS AT AUSTIN

(Mr. WILLIAMS asked and was given permission to address the House for 1 minute.)

Mr. WILLIAMS. Mr. Speaker, today I would like to bring attention to the recent outstanding achievements of the University of Texas at Austin. This public university, which I represent, has continued to fulfill the Texas Constitution's mandate that UT be a "university of the first class."

I regularly meet with President Greg Fennes and Chancellor Admiral William McRaven. I would like to praise them for their continued dedication to upholding the core values of UT—particularly the students' and faculty's cutting-edge research and development of new technologies.

A top public university, UT has conducted \$650 million worth of innovative scientific and scholarly research. In the past few years, the Cockrell School of Engineering has invented new technologies, including a device that will improve physical therapy for patients recovering from spinal cord injuries.

The Dell Medical School, under the leadership of neurologist Dean Clay Johnston, is planning to reinvent medical education and healthcare thinking. They are transforming the way we learn about health.

The students at UT are taught by some of the most brilliant minds in the country. More than 200 members of the National Academies and 12 National Medal of Science recipients serve as UT professors.

Mr. Speaker, I would like to congratulate the University of Texas at Austin on these impressive accomplishments. Our country is proud of Texas' flagship university. What starts at the University of Texas truly does change the world.

I say, "Hook 'em."

In God we trust.
